## The Dermedique X-fol peel

---

Time 30 minutes. Course of 6 recommended

Using six AHA's and BHA's this professional chemical peel utilises polyhydroxy acids to deliver immediate results to benefit all skin types. These acids are derived from nature and are skin friendly. Exfoliation is the key to revealing beautiful skin and the AHA's and BHA's within the X-FOL exfoliate the surface of the skin while working deeply to produce healthy skin from within. The X-FOL works to allow the skin to produce the right amount of moisture controlling dryness and oily acne skins. Vitamin C works to reduce sun damage and promote collagen - the scaffolding within the skin. The combination of ingredients in the X-FOL dramatically reduces the visible signs of aging. The X-FOL helps you to achieve the results you expect and the beautiful skin you deserve.
